

My result Surfside 4:13:32 Would have been 1st 60-69 3rd 55-59

My brief report At about 6 miles the wind was really into our face.
A girl asked me if I would help draft into the wind. A girl in running shorts no problem. A big guy without a shirt real macho passed us and took the lead. A Tri guy telling all about his tri results. Well macho man pulled us to 1 mile short of the turn around. I took the lead, but at the turn around the girl - she dropped me like a bad date and disappeared into the hard rain. Macho man draged himself to the finish about 30 min after I finished.
Great beach run - my second time. AnyHow if you have lots of time I attach a much longer report be another.
